

**Discover the latest in Automation technology at Anusha Technovision's new experience centre**

Anusha Technovision Pvt. Ltd. (ATPL) has offered complete services for designing, distributing, and installing Lighting controls, Audio Video Solutions, Wifi and Security Systems in several upscale residential projects across the nation over the last 21 years.

Anusha Technovision is known for its prowess in designing, implementing, and commissioning cutting-edge technologies across India. Being one of the first Integrators of Lighting Control Systems and Automation Solutions in India, Anusha Technovision has set the bar for product quality and customer service. In terms of comfort, convenience, and extravagance, this experience center in Worli Mumbai has all the features one could expect to find in a high-end home.

The company offers specialized automation, audio-visual, and lighting controls to a variety of markets, including commercial, hospitality, and residential. This experience center serves as a testament to and a brand representative of all the automation solutions ATPL has offered over the years.

The centre is situated in the heart of Worli, Mumbai India's largest commercial city, and behind the prestigious Four Seasons Hotel Mumbai. Its finest aspect is the location, which is handy and in a separate building. The centre has two sections with a combined carpet size of 2800 square feet, housing a separate office space.

Also, 80% of it has a residential layout, including Bed room, living rooms, dining rooms, orientation rooms, a state of the art Home Theater, and other typical living areas. The office area has adjustable lighting that can be changed to mimic the outdoor space in terms of Light color Temperature and intensity through the day.

## Explore various cutting-edge automation solutions

Additionally, in terms of automation, there are top-of-the-line 4K HDR projectors, hanging speakers, in-ceiling speakers, ornamental speakers, etc. The centre also uses cutting-edge technology, such as video door phones, wi-fi, networking, security systems with CCTV, and access controls. This entire area is under continual observation and surveillance. Setting the bar for product quality and customer service is what Anusha Technovision thrives on.

ATPL strives to make people's lives better by bringing them pleasure and comfort. Providing convenience up front and technology at the very end is what Anusha Technovision has been doing, and it will continue to do so in order to stay abreast of all technical developments in the area of automation.
