## CERAMIC SOUND

ANCHORED BY BISTAFF PHOTOGRAPHS COURTESY ANUSHA TECHNOVISION PRIVATE LIMITED

ANUSHA TECHNOVISION PRIVATE LIMITED (ATPL) A NEW Delhi-based technology and innovation driven company that provides customized lighting control and automation systems is well-known for introducing innovative products in the Indian market. Their latest offering is a design statement in sound by Italy based Francesco Pellisari — Zemi Arya. The product is a unique combination of timeless design and innovative technology and is created to complement the environment in which they are placed. Each wireless speaker is handmade in ceramic (available in white, black, red and pink hues) with attention to every detail, and becomes a unique object embellishing the room with an exquisite piece of art. Designed by Francesco Pellisari and Ron Arand, this spherical-shaped speaker features high fidelity Apple Airplay and Bluetooth technology for a wireless audio experience. The speaker has three powerful amplifiers of 125W; a patented bass optimization; and a carbon composite woofer with a 157mm fiberglass cone. Additional features include: two silk dome tweeters, a 28mm fiberglass dome neodymium, and a premium Digital-Analogue-Converter (DAC). The product is priced at ₹ 70,000.
